In the event of any of these cases occurring, participants are only entitled to any balance of the amount due.

STAND ALLOCATION

Art. 8 – Exhibit area allocation is decided by the Management, taking into consideration the overall interest of the Exhibition, the order in which participation forms are received, the area requested and, wherever possible, the preferences indicated by the applicant. It is forbidden to sublet or assign, even free of charge, stands or parts thereof without prior authorization from the Exhibition Management.

It is also forbidden to exhibit items other than those indicated in the participation form without the above authorization. It is also forbidden to exhibit products and/or brands of other companies that are not indicated in the "participation form" and/or in the "Catalogue Entry Form" and/or in the

"List of represented companies". Non-fulfilment will result in the contract being annulled and the consequent immediate closure of the exhibit space, without any reimbursement whatsoever of sums paid or expenses incurred.

MOVING IN – SETTING UP – FIRE PREVENTION – ELECTRICAL SYSTEMS – WORK SAFETY

Art. 9 – The Management has the right to modify the duration, opening and closing date and daily opening hours of the Exhibition. This right does not oblige the Management to give participants overall reimbursements or compensation of any kind.

Exhibitors and their staff can enter the Exhibition half an hour before opening time and must leave the venue at closing time. Management can authorise extensions of the above-mentioned times on request.

Art. 10 – For the work of setting up stands, including the hire of material necessary for this purpose, the Management reserves the right to appoint one or more firms as "authorised suppliers". Participants will be duly notified of their names and service rates. The Management declines any responsibility for work carried out by authorised suppliers and for any other service subcontracted to third parties. The service conditions considered valid are those indicated in the EXHIBITOR GUIDE booklet prepared for this purpose.

Art. 11 – Moving in and setting up can begin 5 days before the inauguration from 8 a.m. to 9 p.m. and must finish within 5 p.m. on the day before inauguration. From that moment, all completion or modification work must be carried out with the authorisation of the Management and with a specific surveillance service paid by the exhibiting firm, between evening closing and morning opening times.

Requests for this service must be received within 12 am on the same day by S.A.T.E. (Exhibitor Technical Assistance). Extensions of working hours ON THE LAST DAY FOR SETTING UP must be approved by the Technical Office and will only be granted in exceptional cases. The costs of said services are specified in the Exhibitor Guide.

All modifications or changes to exhibit areas must be authorised by the Management and carried out at applicants' expense. Exhibitors who have not moved in to their stand or started setting up in their exhibit area within midday of the day before the inauguration will be considered as having renounced to all intents and purposes and the penalties foreseen by the last clause of Art. 6 of these conditions applied.

Art. 12 – All stand fitting designs must be approved by the Management and submitted at least 60 days prior to the opening day of the Exhibition (14th December 2008).

Participants must always set up and keep their stands in such a way as to avoid jeopardising the appearance or visibility of nearby stands or causing any damage whatsoever to other participants. Stands fittings must remain within the area allocated, indicated by paint or chalk lines. Maximum permitted height is 3 metres – with the exception of cases explicitly authorised, upon written request, by the Technical Department of Rimini Fiera – In particular:

- designs of exhibits/stand fittings which exceed the height of 3 metres must be submitted, as specified above, by means of a written request, for approval by Rimini Fiera's Technical Department, which reserves the unquestionable right to assess the advisability of granting authorization.
- In particular, advertising signage on stands, positioned at a height of over 3 metres from floor level is subject to payment of an expo publicity charge of 25,75 € per square metre (where sq.m. is intended as being the surface area of the advertising signage).
- All 2-sided graphics must be positioned at a minimum distance of 2 metres from the boundaries with adjacent stands.
- Since exhibit areas do not have partition walls, every exhibiting firm must (at its own expense) design its stand/exhibit in such a way as to include these partitions to separate its stand from neighbouring exhibitors'.
- In particular, in the case of island stands (with four open sides) and peninsula stands (three open sides), stand fittings must not occupy, with the exception of cases explicitly authorised, upon written request, by the Technical Department of Rimini Fiera – more than 50% of each side of the stand's perimeter, in order to ensure appropriate visibility of nearby stands
- Designs of exhibits/stand fittings which does not comply with the above maximum perimeter limitation (50% of each perimeter side) must be compulsorily submitted by means of a written request, for approval by Rimini Fiera's Technical Department, which reserves the unquestionable right to assess the advisability of granting authorization.
- In large exhibit areas that include zones indicated as passageways on the expo halls' floor plan, it is forbidden to occupy these zones with stand fittings.
- Construction of two-floor stands, which must not exceed a maximum height of 5.5 metres. The extra area occupied by the second floor will be invoiced according to the rates provided for by art. 18 of these General Rules and Regulation.

All liability regarding setting up and fitting is the responsibility of exhibitors, who expressly exonerate Rimini Fiera SpA from liability for any damage caused to themselves or others by exhibit/fitting defects due to wrong calculations or imperfect construction. Rimini Fiera SpA reserves the right to have fittings mounted whose designs have not been approved changed or removed.

Art. 13 – During the predisposition of their own booth, exhibitors are undertaken to use water paint only. Exhibitors undertake to avoid damaging plaster and flooring and to use trestles or frames to hang or hold objects. Any damage must be reimbursed; exhibited products will be held as security for this, on which the Management will have the right to recoupment, unless of course there are any other forms of compensation.

Art. 14 – All materials used to mount the stands (partitions, back drops, varied structures, platforms, coverings, fabrics, ceilings, carpets, etc.) must be UNINFAMMABLE, ORIGINALLY FIRE-RESISTANT OR FIREPROOFED in accordance with the norms in force and subsequent integrations and modifications. Thereby Exhibitors, prior to the beginning of the Exhibition, must send Rimini Fiera SpA the Fireproofing Certificate and test report for the materials they wish to use, as indicated in greater detail in the specific "Fire Prevention Form".

Each stand must be equipped with fire extinguishers having a capacity of no less than 6 kg., with a ratio of one (1) per 100 sq.m. of exhibit area. Moreover, the fire extinguishers must be placed in central positions on the stand. Whenever safety and prevention norms are disregarded, Rimini Fiera SpA has the right to:

- Forbid the defaulting stand fitting firm from working in the Expo Centre.
- Exclude the Exhibitor from participating in the Exhibition as well as any others held at Rimini Expo Centre.

All electrical installations on stands are to be charged to the Exhibitor who will see to it that they have been carried out in a proper fashion, as prescribed by current norms.

In particular, electrical systems must be installed carefully following current norms. After stands' electrical systems have been installed, each Exhibitor and Installer/Fitter must supply Rimini Fiera SpA with a "Declaration of conformity of a properly installed electrical system", declaring that the systems in question are properly made and installed by filling in the relative form in the Exhibitor Guide booklet and keeping a copy of this declaration on the stand. Connection of stand electrical systems to Rimini Fiera SpA's electricity supply must only be carried out by Rimini Fiera SpA's official electricians, after having withdrawn the relative form of the "Declaration of conformity of a properly installed electrical system" (as per law 46/90). The Declaration must be duly signed by a qualified professional. All electrical system components must comply with the C.E.I. norms and have the IMQ mark or the equivalent for foreign countries.

WORK SAFETY

Art. 15 – Exhibitors are obliged to comply with current laws and norms regarding work safety and in particular the provisions of Italian Decree Law 626/94 and its subsequent modifications and integrations. When ordering setting-up or dismantling work or any other type of work to be carried out within the Expo Centre's premises or grounds, Exhibitors are obliged to:

- check the technical and professional suitability of all companies requested to carry out similar work, via their chamber of commerce registration or similar records, according to the type of work to be contracted;
- supply the aforesaid companies with detailed information regarding the specific risks to be found in the environment they will be required to work in and the precautionary and emergency measures regarding their work;
- coordinate protective and precautionary measures regarding the risks workers are exposed to, making certain that all parties are informed, to avoid the risk of work carried out by any company involved in the overall project interfering with that being done by others.

Exhibitors must favour work co-ordination, also taking into consideration the specific risks involved when working in the Expo Centre premises and grounds explained in part (but not in their entirety) in the present instructions supplied by Rimini Fiera SpA. They must also inform all persons they request to come to the Trade Fair Centre of the prohibitions, regulations and risks involved, indicated in the present rules and regulations.

Art. 16 – All Exhibitors are obliged to attend to the cleaning of their stands during the hours set by the Management. In particular, Exhibitors must leave the stand area as it was when assigned to him, therefore free from any adhesive tape, waste and rubbish.

Art. 17 – It is forbidden to dismantle stands totally or partially before the end of the exhibition. Exhibitors who violate this rule are obliged to pay a fine equivalent to half the gross rental cost of their stand. Work for removing stands, samples, products and goods can be carried out between 5.00 p.m. and 8.00 p.m. on 17th February 2009. In any case, it's advisable to remove all valuable, fragile or easily carried objects from the stands. Dismantling of stands must be completed within no more than three days from the end of the Exhibition.

The dismantling of the stand have to finish within 8.00 p.m. of 2nd February. After this deadline, if exhibitors have not finished the work, the Management can proceed on its own initiative at the expense and risk of and behalf of Exhibitors. As of 30 days from the end of the Exhibition, Rimini Fiera SpA has the right to arrange for the sale without any formality whatsoever of material and samples exhibited which Exhibitors have not removed.

From the sum obtained from the sale, the Management will retain any amount due from Exhibitors and will keep the remaining amount at their disposal for a maximum of 6 days, after which this sum will be confiscated by Rimini Fiera SpA, who will assume no liability for material and products left in the Expo Centre and can have them transported elsewhere at the expense and risk of and on behalf of Exhibitors.

RATES-PAYMENT

Art. 18 – Exhibit areas are all easy to see and reach. The participation fee for floor space for the entire length of the show is as follows:

- € 182 for sq.m Area with 4 open fronts (minimum 192 sq.m)

Two-floor stands: the second floor's area (that is subject to approval by Rimini Fiera Management) will be invoiced at 50% of the area rate.

If Rimini Fiera decides, at its discretion, to allocate exhibit space also in areas other than the halls (e.g. south hall, rotunda, any outside space, etc.), the fee for occupation of said space will be specified subsequently.

Each exhibiting firm will also have to pay a registration fee of € 529,00 which covers 1 parking permit, exhibitors' badges according to exhibit area, listing in the official catalogue, local publicity taxes and compulsory insurance (see art. 23).

The amount of € 1.110,00 plus € 529,00 (registration fee) must be paid by those who, after obtained authorisation from the Management, are guests of other exhibitors. Likewise, the Hospitality fee and the Registration fee will be invoice to the exhibitors who, without authorization from Rimini Fiera's Management, will host in their own stand companies not declared in the form "D – HOSTED COMPANIES". It is clear that Exhibitors granting such hospitality will have no right to any discount for this reason.

The invitation tickets are available on exhibitors' request at the cost of € 1,00 (minimum quantity 100).

All the above fees are intended as exclusive of VAT (20%).

As indicated in the service request forms, including all forms of publicity previously agreed on with Rimini Fiera SpA which can be found on the expo's web site www.sigeep.it, all sums due for services requested must be paid by the end of the expo. All payments for services and other arrangements requested by exhibitors represented and/or hosted at booths set up by Promoter Organizations, including all forms of advertising agreed upon in advance with Rimini Fiera S.p.A., as specified in the request forms available at www.sigeep.it, must be made by the Promoter Organization directly to Rimini Fiera by the end of the event.

Art. 19 – The balance of the fee must be paid in the same way as the advance payment, within and no later than the last day of the exhibition. The Promoter Organizations alone are responsible for paying Rimini Fiera the balance of charges for any services requested by exhibitors

represented and/or hosted on their respective stands and are required to make such payments in the same way and by the same deadline specified above.

In the event of the balance not being paid, exhibiting firms and stand fitters appointed by them will not be allowed to move in or set up.

If this balance is not paid immediately, exhibitors in arrears lose the right to participate in the Exhibition and the Management, as well as withholding the deposit already paid and expecting the outstanding balance, considers the exhibit area free and if necessary can rent it to another exhibitor, as well as applying the provisions of the last clause of Art. 6.

In the event of failure to make immediate payment of the balance, exhibitors in arrears lose every right to participation and the Management, as well as withholding the deposit already paid, claiming the relative balance and considering the area free for rental to other exhibitors, will apply the provision in the last clause of Art. 6.

Payment of ADDITIONAL SERVICES, requested after confirmation of participation, including all forms of publicity previously agreed on with Rimini Fiera SpA, and any other expenses that may have been anticipated by Rimini Fiera SpA on behalf of Exhibitors must be made at the bank counter in the Expo Centre during Exhibition hours. Upon payment, Exhibitors will receive an EXIT PERMIT, which is required to begin dismantling the stand and removing exhibited products. Failure to pay sums invoiced authorises the Management to refuse to issue the "Exit Permit" and withhold, with a right to compensation, goods and fittings on the firm's stand.

ENTRY PASSES

Art. 20 - The Management of Rimini Fiera SpA puts at the disposal of each participating company a number of free entry passes according to the amount of sq. m. covered by the exhibit area, from a minimum of 4 to a maximum of 50.

Exhibitors are responsible for all material they have received; if the latter should be misplaced or left behind, Rimini Fiera is not required to replace it, and may charge exhibitors in the invoice for any replacement material they request.

In case of need of supplementary passes, the exhibitor can purchase them at the price of €18,00 +VAT each.

Entry badges are strictly personal. At no time and for absolutely no reason may they be given to another person, even momentarily.

Art. 22 - Although not assuming any sort of obligation or responsibility, the Management provides a permanent 24-hour security service from 9 p.m. from the third day before the inauguration of the Exhibition until 8 a.m. on the day after its closure. In spite of this, participants must look after their stands and the products exhibited on them during Exhibition hours.

VARIOUS

Art. 24 - According to Law N°3 of 16th January 2003 and Prime Minister's Decree of 23rd December 2003, smoking is absolutely forbidden throughout the entire Expo Centre. The smoking ban is indicated by

appropriate signs with the notice 'VIETATO FUMARE' (NO SMOKING), along with indications of the relative provisions of law, the fines that can be applied to offenders and the people whose job it is to ensure that the ban is respected and are responsible for ascertaining any infringements. These signs are located at the Expo Centre access points and are clearly visible. On the premises, other signs are also used to indicate that smoking is forbidden: these only bear the notice 'VIETATO FUMARE'.

Offenders are subject to a fine of from 25,00 to 250,00 euros; the amount of the fine is doubled in the event of infringements being committed in the presence of a clearly expectant woman, babies or children up to twelve years of age. The Municipal Police, State Police and Rimini Fiera officials are responsible for supervising the observance of this ban and ascertaining any infringements. Smoking is only allowed in the outdoor areas of the Expo Centre and under the open-air porticos, indicated by appropriate notices.

SECURITY DURING EXHIBITION

Art. 25 - A) The quantity of alcoholic beverages served to visitors exclusively for tasting purposes must be controlled.

B) It is forbidden to remove glasses, bottles or other glass objects from stands: these items must be positioned in such a way as to be accessible only to exhibiting firms' staff.

Any goods without this document will be confiscated at the exits by security staff.

Any authorisation given does not imply the assumption of any responsibility by the Management or exonerate participants from any responsibility regarding operation of the aforementioned machines.

Participants must therefore take all precautions necessary to prevent accidents and fires, reduce noise, eliminate bad smells and avoid gas emission: it is absolutely prohibited to operate machines or equipment which involve the use of fire; machinery must in no way constitute a risk or disturbance to others. On the basis of its unquestionable judgement, the Management reserves the right to revoke the above-mentioned authorisation should it consider that inconvenience of any type could occur. If machines must comply with current laws and regulations, exhibitors must have them examined previously at their own expense to obtain the relative permit from the competent authorities.

In particular, ice-cream production machinery and/or equipment must comply with the European Machinery Directive 89/392/EEC and subsequent directives in force. In this regard the Firms exhibiting said machinery and equipment declare, by signing the participation application, that said machinery complies with the above-mentioned Directives, excluding all liability of Rimini Fiera.

ART. 27 The exhibitor assumes all liability regarding ownership of brands, logos, patents, industrial inventions and models, and copyrighted material related to the products and/or machinery on display. The exhibitor therefore indemnifies Rimini Fiera against all claims in the event of copyright violation or any breach of regulations governing fair competition, with regard to both other exhibitors and third parties in general.

Any disputes that may arise among exhibitors or between exhibitors and third parties shall therefore be directly resolved by the parties, exonerating Rimini Fiera of any liability and/or obligations.

Art. 28 - Although exhibitors are allowed complete freedom to advertise within the area of their stands, any form of publicity causing disturbance or which may be considered direct comparison with other Exhibitors or which in any way may have a negative effect on the spirit of commercial hospitality offered by the trade show, is strictly forbidden.

More specifically, the following are forbidden to any exhibitor:

- any form of publicity or advertising in the internal and external areas of the exhibition centre beyond their own stand

- distribution of advertising material beyond the area of their own stand

- display of billboards and/or samples, even if merely indicative, on behalf of companies not listed in the participation application and not represented

- any entertainment or show initiative of any nature or characteristic, even if limited to within the stand or for product presentation purposes, without prior authorization from Rimini Fiera S.p.A.

Notwithstanding the content of the above clauses, any form of publicity and advertising beyond the assigned exhibition area will be permitted only with prior authorization from the Rimini Fiera S.p.A. publicity office, and will be subject to payment of the tariffs shown in the published lists.

- Any form of flyer or leaflet distribution is strictly forbidden both inside and outside the exhibition centre.

- The display of billboards or other advertising material of companies not listed in the participation application or not represented

The parking of vehicles exhibiting trademarks of firms of advertising in the exhibition centre parking areas is also forbidden unless expressly authorized by Rimini Fiera and is subject to payment.

Notwithstanding observance of the above mentioned restrictions, the exhibiting company in any event remains fully liable in civil, administrative and penal action deriving from advertising performed; the exhibiting company is also fully liable with respect to other exhibitors and/or third parties in general for claims deriving from advertising messages or from violation of the law, including those relating to competition. Exhibitors are not normally allowed to use audio reproduction equipment. Any exception must be authorized by Rimini Fiera S.p.A. and does not exempt the Exhibitor from the fulfilment, at their own care and expense, of legal obligations relating to royalties, for which the Exhibitor accepts full responsibility.

Failure to observe the above mentioned prohibitions, will lead to Exhibitor liability for payment of a penalty of 2,000 (two thousand Euros) for each violation of the above mentioned rules as ascertained by Rimini Fiera, the latter reserving the right to make an additional claim for greater damages.

REGULATIONS REGARDING SOUND LEVELS ON THE EXHIBITION PREMISES

Art. 29 - All exhibiting companies authorised by Rimini Fiera SpA Management as per Art. 28 to use sound reinforcement equipment must use said equipment in such a way as to ensure a sound level which enables business activity to be carried out normally, in any case no higher than 80 decibels (Decree Law N° 277 of 15.08.91 "Work safety and CEE Directives", Chapter IV). In any case, the sound level must remain below the limit set by current laws and/or regulations. Measurement of sound levels, by means of phonometers, will be carried out at the nearest possible point outside the stand area.

The following action will be taken against exhibitors not complying:

- For the first infringement notified, a verbal warning;
- For the second infringement, written warning;
- From the third infringement onwards, the stand's electricity supply will be turned off for 60 minutes (without exhibiting firms having any right whatsoever to reimbursement or compensation); 15 minutes' warning will be given before the electricity supply is turned off.

In none of the aforementioned cases will Rimini Fiera SpA be responsible for any damage caused to the equipment/material exhibited.

ART. 30 - Exhibited materials cannot be removed from the site before the end of the event. "On the spot" sales are strictly prohibited. Services in exchange for payment are prohibited. The exhibitor assumes every responsibility for violations of this ban, releasing Rimini Fiera from any consequent responsibility and/or charge. Disputes concerning relations with other operators present, arising from this ban, must be resolved directly by the exhibitors involved, releasing Rimini Fiera from any related responsibility and/or charge.

Art. 31 - The Management reserves exclusive rights to any reproduction (photographs, films, videos, designs, etc.) of the Expo Centre and its stands in particular. Only photographers authorised by Rimini Fiera SpA can work inside the Expo Centre halls.

OFFICIAL CATALOGUE

Art. 32 - Without assuming responsibility of any kind, Rimini Fiera S.p.A. prints and distributes an official catalogue, using the data in the application forms A1 or A2 in part regarding "consent to processing data", C, D, which must be received within and not later than 3rd december 2008.

One copy is consigned to each Exhibitor free of charge.

Any other technical indications or publicity can be included by Exhibitors on request and following payment. In particular, the entry in the official catalogue of the name and products of represented companies present at the Exhibition on the stand assigned to their representatives, will be included in the catalogue at the cost of €56,00 + VAT for each name inserted. The exhibition catalogue is the organizers' only official publication. Any other publicity publication is printed on the initiative of private individuals without authorisation.

Art. 33 - As well as its trademarks, Rimini Fiera SpA claims as its exclusive property the name "MIA INTERNATIONAL FOOD SHOW", and all its variations, abbreviations, simplifications and initials, so that nobody whatsoever can use them without prior written authorisation from the Management.

Art. 34 - The Management reserves the right to supplement the Exhibition's General rules & regulations of Participation at any moment with rules to improve exhibition activity. Such rules, in particular those printed in the "Exhibitor Guide" booklet, are binding for all concerned, as they are an integral part of these conditions.

As well as the immediate closure of the stand by Rimini Fiera staff, failure to comply with the General Rules and Regulation of participation results in the withdrawal of entry passes and the Exhibitor being prohibited from entering the premises where the stand is located. All this is without right to any reimbursement and subject to any other action the Management may decide on regarding moral and material damages.

FINAL PROVISIONS

Art. 35 - If for any reason, including force majeure, the Exhibition cannot be held, participation applications are considered automatically annulled and the Management will reimburse participants the fees paid for exhibit area rental. If, on the other hand, the Exhibition is suspended after the opening:

a) if the suspension is caused by force majeure, no reimbursement is due to participants;

b) if for any other reason, the Management will reimburse participants the rental fee in proportion to the Exhibition time remaining. In neither case is the Management obliged to pay participants compensation or indemnity of any type.

Art. 36 - Communications and/or complaints of any kind will only be taken into consideration if made in writing. The measures taken by the Management will be definitive and unquestionable.

Art. 37 - Exhibitors and their staff are bound to observe and have observed the conditions laid down by the Management. If they do not, they will be excluded from the Exhibition without any right to reimbursement or compensation and with the obligation to pay any moral or material damages caused by their non-compliance.

Art. 38 - Conferences, contests and events of various types may be held during the Exhibition.
