AUCELLA S.R.L.	Coral, Cameo and Pearl Jewelry	www.aucella.com	In Torre del Greco, where coral has been crafted for centuries, the story of the Aucella family began. For many years we believed our origins dated back to 1930, when Commendatore Giovanni Aucella officially established his coral and cameo workshop. But family memory suggested an older story. Driven by this curiosity, a historical research was conducted in the archives of the Municipality of Torre del Greco. Among handwritten records from the late nineteenth century, an unexpected word appeared in a birth certificate dated 1897: “Bisciuttiere.” An old term likely derived from bigiotterie — from the French bijoux — used to describe artisans working with precious objects. This discovery led to an even earlier document.
